

Elegant and Practical
Downstage Display Solution

Main Specifications:

The Comfort Monitor is an essential tool for enhancing stage presentations. Designed for seamless integration with teleprompter software, it allows presenters to discreetly view their content while maintaining a clean, professional stage appearance. Ideal for live events, conferences, and performances, the Comfort Monitor offers a practical, high-quality solution for managing stage cues without clutter.

Teleprompter Compatibility
Seamlessly connects to teleprompter software for enhanced stage presentations

Durable Protection Glass
Extra clear glass protects the display from damage and scratches.

Motorized Angle Adjustment
Remote-controlled, adjustable from 0° to 60° for optimal viewing.

Internal Storage & Cable Management:
Convenient compartments for power distribution and AV equipment.

Commercial Grade Signage Monitor
Hides cabling and electronics for a clean, professional stage appearance.

Braked Castors:
Mobility with lockable wheels for easy positioning on stage.

**32"
55"**

Versatile Display Sizes
Supports screens from 32" to 55" for various event needs.

Compact & Portable:
Folds down to 20 cm in height for easy storage and transport in the durable hard case.

FLIGHT CASE

Durable Hard Case for Portability

The Comfort Monitor comes with a durable hard case designed for easy and safe transport. When closed, the monitor's compact size allows it to fit neatly into the case, ensuring it is well-protected during transit without occupying excessive space.

- 6mm high quality plywood carcass.
- Locking catches.
- Glued & Pinned construction.
- 16mm aluminium angle to leading edges.
- Bright nickel and chromium plated fittings.
- Dust-tight hybrid aluminium seal for lid and base.
- Lockable wheels

32"
55"

Versatile Display Sizes:

The Comfort Monitor is compatible with a range of screen sizes, from 32" to 55", making it adaptable for various stage settings and presenter needs. Available sizes include 32", 43", 50", and 55".

Commercial Grade Signage Monitor

The Comfort Monitor shroud ensures a neat, professional look on stage by hiding unsightly cabling and electronics. This sleek design maintains minimal visual impact, keeping the focus on the presenter while preserving the stage's aesthetic.

Motorized Angle Adjustment:

One of the standout features is the motorized angle adjustment, allowing you to set the display at any angle from 0 to 60 degrees via a remote control. This flexibility ensures optimal viewing angles for presenters, enhancing their performance. When not in use, the monitor can be fully closed to a flat 0-degree position, reducing its height to just 20 cm, making it easy to store and transport.

Internal Storage & Cable Management:

The Comfort Monitor stand features internal storage for power distribution, AV players, and other equipment, along with easy access to cabling via a large-diameter hole in the bottom panel, ensuring a tidy setup that accommodates standard plug sizes.

Mobility with Braked Castors

Built-in braked castors provide mobility for easy placement of the monitor on stage. Once positioned, the brakes ensure stability, keeping the monitor securely in place.

Durable Protection:

The monitor includes an extra clear protection glass that covers the display, offering protection against damage and scratches, ensuring long-term durability while maintaining a sharp, clear image.
